Stephen Walker-Weinshenker

Education

2013–present	**Electrical Engineering**, *Colorado State University*, Fort Collins, *Junior*. Anticipated completion date Spring 2018

Experience

Work

2014–present	**Student Lab Technician**, *Engineering Network Services*, Fort Collins, CO. Supported computer labs for the College of Engineering at Colorado State University.

- Supported users of the labs;
- Maintained computing hardware in the labs;
- Maintained operating system images and software on computers in the labs.

Volunteering

2011–2014	**Intern**, *Aurora Fox Arts Center*, Denver, CO. Volunteered as a theatre lighting technician and stagehand during the summers. Designed lighting for a show as well as worked as primary student electrician during the summers.

Computer skills

Windows	Proficient in day to day usage as well as domain functionality
Mac	Primary operating system used. Familiar with Unix underpinnings
Linux	Proficient in *nix OSs
Programming/Scripting	Basic knowledge of Java, Python and C.

Professional Memberships

2015-Present	Institute of Electrical and Electronics Engineers (IEEE)

Activities

2015-Present	**Secretary**, *Hashdump: Colorado State University's computer security club*, Fort Collins, CO.
2015-Present	**Participant**, *Colorado State University Amateur Radio Club*, Fort Collins, CO.

Interests

Designing Electronics and Robots	I designed and built a remote controlled vehicle, and designed a small belt mounted computer.
Systems Integration	I enjoy learning how buildings and factory lines work, and creating proposals for how to make these systems work better.
